**Due to the large tidal variations in the Kimberley, we are not always able to guarantee to keep with the planned itinerary and adjustments may be considered by the captain during the cruise. Our cruises are adventure based, and you can expect to see and experience more than what is listed on the itinerary. Weather changes and other vessel movements will be taken into consideration to ensure an exceptional experience for our guests.

DAY 1

Kununurra, Wyndham Port

On the day of embarkation, a courtesy vehicle will collect you from your accommodation in Kununurra at 1:30pm and it's just a 90-minute coach journey to Wyndham Port, where you will arrive at the awaiting Ocean Dream. Your cruise begins with welcome aboard drinks, as you cruise out of the Cambridge Gulf watching a glorious Kimberley sunset. Unpack, meet your fellow adventurers, and enjoy a delicious dinner served on the rear deck while we cruise through the night towards the Berkeley River.

DAY 2

Berkeley River

Join a tender vessel excursion to explore the beautiful Berkeley River, with towering gorges, waterfalls and sandstone cliffs. We discover the head of this incredible river system and the myriads of animal species that call this place home. Swim in freshwater holes and there is the opportunity for a spot of fishing.

DAY 3

King George River, King George Falls

At high tide, we cross the sandbars of the King George River and journey upriver to one of the Kimberley's most awe-inspiring natural wonders. The towering King George Twin Falls plunge over 80 metres, making them among the tallest waterfalls in Western Australia—a breathtaking sight and a truly unforgettable welcome.

DAY 4

Koolama Bay

We visit the historically significant Koolama Bay where the 1942 MV Koolama bombing attack by Japanese air raids occurred. Swim in the afternoon in a beautiful waterhole at the site where the MV Koolama bombing survivors camped.

DAY 5

Glycosmis Falls & Barra Falls

Located near Cape Londonderry, today we experience two unique and impressive falls of the north Kimberley. Glycosmis Falls, complete with two thundering streams of water pouring off the cliff face into the sea is well worth a visit and if time permits and tides are right, we can explore the area for Gwion Gwion Art. Barra Falls, equally as impressive and only accessible by helicopter or smaller vessels, is a stunning location for a hike and freshwater swim.

DAY 6

Vansittart Bay, Jar Island

Join a tender vessel excursion out to Jar Island to explore the fascinating Gwion Gwion art (Bradshaw Art). Unique to the Kimberley region, the fascinating art is recorded to be over 17,000 years old, with recognisable differences in style and meaning. In the afternoon, there will be an opportunity to take a walk to the crash site of DC3 aircraft which crashed in 1942, located on the eastern side of Vansittart Bay.

DAY 7

Mitchell River, Surveyor's Pool

If you haven't seen a crocodile yet, then you will more than likely encounter one or two on the mighty Mitchell River. A fantastic river for fishing and exploring the hundreds of creeks that form along the mangrove forests as the tide falls. The area is alive with wildlife making for exciting scenic excursions and the afternoon is spent at the beautiful Surveyor's Pool for a bush walk and swim.

DAY 8

Swift Bay

If the tides are favourable, there will be an early morning oyster harvest on the exposed rocks of Swift Bay. Guests will then have the option of a helicopter flight over the Mitchell Falls, or a scenic tender vessel excursion. The afternoon is spent exploring the cultural significance of Swift Bay that was once an important meeting place for the Indigenous people.

DAY 9

Bonaparte Archipelago, Bigge Island

Experience the beauty of Bigge Island which lies approximately 6 kilometres off the coast in the Bonaparte Archipelago. This weathered sandstone island is surrounded by reef filled bays and is home to several endangered and rare mammals. It is also a significant Indigenous rock art site for the Wunambal Gaambera people.

DAY 10

Prince Regent River, Kings Cascade Falls

Entering the Prince Regent River, it's time for a sensory overload as Ocean Dream is manoeuvred directly under the Kings Cascade Falls. Have a freshwater shower on the bow of the vessel before embarking on a moderate climb to the top of the falls for a refreshing swim in the spectacular Cascade Pool. Alternatively, join a tender excursion upriver to the enchanting Amphitheatre Falls—a hidden oasis where a majestic high-drop waterfall cascades into a secluded gorge.

DAY 11

Montgomery Reef, Red Cone Creek, Ruby Falls

The morning is spent exploring the fascinating Montgomery Reef that appears to rise out of the water on a falling tide. Witness the abundance of marine life such as fish, turtles, manta rays, sharks and dugongs as their habitat changes with the moving tide. In the afternoon, enjoy a scenic tender ride through Red Cone Creek to the stunning Ruby Falls, with time for fishing and mud crabbing as the sun sets on another magnificent day.

DAY 12

Talbot Bay, Horizontal Falls

Today we experience the Horizontal Falls, one of the natural wonders to be found in the Kimberley. Guests have the option of taking a fast boat ride through the falls and a tender vessel excursion up Cyclone Creek to explore the incredible rock formations created billions of years ago. Fascinating wildlife can be observed in water and on land.

DAY 13

Crocodile Creek, Silica Beach

Enjoy an expedition up Crocodile Creek and a freshwater swim in a spring fed waterhole. Take in the beautiful scenery as we cruise through Yampi Sound to Silica Beach, located on Hidden Island. Forming part of the Buccaneer Archipelago, it is named after the high content of Silica in the sand and is a lovely place to swim and stretch your legs.

DAY 14

Gantheaume Point, Broome

Following one last breakfast and final goodbyes to fellow guests and crew, we disembark from Ocean Dream at 8:30am. Our courtesy coach will transfer guests to their accommodation in Broome.
